**MOVING ITALIANNESS: ProMOTing innoVation capacity IN the hiGher Education System  
of Argentina and ITalia through an Action scheme for the MobiLity And cooperation of  
UNiversity StudeNts and ProfESSorS**

**TNE23-00080 / CUP: F31I24000320006**

Dear Mrs. Carla Masi Doria,  
UniNA scientific coordinator of the project,

I am pleased to submit the proposal for the selection of students and academic staff who will take part in the upcoming cycle of our academic mobility exchange program.

The students-participants were selected through an open procedure, accessible to all, according to the principles of transparency and fairness in the allocation of funds.

A formal call for applications was issued to postgraduate students - those pursuing a Master's or PhD degree - who possess proficiency in the Italian language and are interested in conducting research related to their thesis projects. The objective of this call was to identify and support students whose academic work would benefit from engagement with Italian language sources, contexts, or institutions, thereby contributing to the advancement of their research within an international and multilingual academic framework.

In particular, the call was directed at students who wish to carry out two-month research stay at the University of Naples Federico II, with the objective of advancing their thesis research. To this end, applicants are seeking to obtain a research grant that would enable their temporary academic mobility and strengthen international ties within their field of study.

It's important for us, strengthen scientific and educational ties between Italian and Argentine universities to foster the implementation of an increasingly widespread network and further international exchanges to disseminate specialized knowledge through research methodologies also applied to teaching.

This is intended to strengthen the Argentinian model of university education by promoting intercultural competencies, interdisciplinary mobility, cooperation with European contexts.

The selected students are:

- Gisela Tamara Lococo
- Anabella Facciuto Kaed
- Natalia Elisa Stringini
- Federico Perez Martin

The research topics will be framed in the following arguments

- A Common Legal Tradition: EU and Latin America, Civil Law and Criminal Law;
- Artificial Intelligence and Law;
- Improving Gender Equality: A Stocktake of EU and LA County Approaches;

The documentation corresponding to those selected is attached in the annex.

We look forward to your kind confirmation and to the continuation of our successful collaboration.

Sincerely

LEANDRO VERGARA  
DECANO
